## Education

University of Texas at Arlington, PhD in Computer Science	CGPA: 4.0	2020 – 2024 (expected)	Arlington, TX, USA
Tribhuvan University, Bachelors in Computer Engineering	Grade: 80%	2013 – 2017	Kathmandu, Nepal

## Publications

- J. Lei, **M. Munikar**, K. Suo, H. Lu and J. Rao, "Parallelizing Packet Processing in Container Overlay Networks," In *Proceedings of the Sixteenth European Conference on Computer Systems (EuroSys '21)*, pp. 261–276, 2021, DOI: 10.1145/3447786.3456241
- M. Munikar**, S. Shakya and A. Shrestha, "Fine-grained Sentiment Classification using BERT," *2019 Artificial Intelligence for Transforming Business and Society (AITB)*, Kathmandu, Nepal, 2019, DOI: 10.1109/AITB48515.2019.8947435
- P. Dhakal, **M. Munikar** and B. Dahal, "One-Shot Template Matching for Automatic Document Data Capture," *2019 Artificial Intelligence for Transforming Business and Society (AITB)*, Kathmandu, Nepal, 2019, DOI: 10.1109/AITB48515.2019.8947440

## Work Experience

**Cloud & Big Data Lab, UT Arlington** Arlington, TX, USA  
GRADUATE RESEARCH ASSISTANT Jan 2020 – Present

- Studied the behavior of container overlay network on Linux in great technical detail, and researched ideas to optimize its performance.
- Modified the Linux kernel source code to implement and test research ideas.

**Docsumo** Kathmandu, Nepal  
DATA SCIENTIST Jul 2018 – Dec 2019

- Developed computer vision object-detection models (Faster R-CNN, YOLO, SSD) and text-based models to identify key points in documents.
- Developed a novel template-based engine to extract structured information from document images with over 90% accuracy.
- Gained experience in all stages of data science projects: data collection & annotation, model development & evaluation, production-ready model deployment.
- Developed business chatbots and BI reports for international e-commerce clients.
- Developed predictive analysis systems to detect anomalies in time-series data.

**LIS Nepal Pvt. Ltd.** Lalitpur, Nepal  
SOFTWARE DEVELOPER Oct 2017 – Jun 2018

- Developed and optimized large-scale SQL queries for real-world retail enterprise.
- Developed business intelligence (BI) reporting using Oracle BI suite.
- Built a real-time customer sentiment analysis of tweets using IBM Watson.
- Wrote data integration scripts using big data technologies (Hadoop, Hive, Sqoop, Flume).

## Skills

Computer languages	Python, SQL, C/C++, Bash, Matlab, Java, Javascript, $\LaTeX$
Machine learning libraries	Keras, Tensorflow*, PyTorch, NumPy, OpenCV, Scikit-learn
Data science tools	Microsoft Office, Pandas, Google BigQuery, Google Analytics
Cloud services	AWS, Google Cloud, DigitalOcean
Web & database	HTML, CSS, SQL, MongoDB*

## Notable Projects

**Docsumo**  Jan 2019 – Dec 2019  

- A product-as-a-service for extracting structured information from document images such as invoices, bank statements, W2-forms, etc. It uses a combination of object-detection models, rules engine, and template-matching engine to get an accuracy of over 90%.

**Movie Review Mining and Recommendation System**  Aug 2017  

- A web application that analyzes movie reviews' sentiments using deep learning (RNTN) and builds a collaborative-filtering recommender system on top of it. Users provide movie reviews and get personalized movie recommendations in return. Built using Python and NumPy.

**Duplicate Bug Tracker**  Aug 2016  

- A bug tracking system that can list possible duplicates of a bug report using natural language processing. It uses textual feature extraction using TF-IDF and logistic regression classifier to detect duplicate bug reports.

**Photocrypt**  Mar 2015  

- A text-to-image steganography tool that lets you encrypt/decrypt text messages in bitmap image files so that you can send/receive messages without others' notice. It implements a modification of the Least Significant Bit (LSB) Substitution algorithm. Developed using C++, OpenCV, gtkmm.

## Trainings & Certifications

Convolutional Neural Networks 	Coursera	Jul 2018
Neural Networks & Deep Learning 	Coursera	Apr 2018
Machine Learning 	Coursera	Mar 2018
Database Management Essentials 	Coursera	Jan 2018
